PROFILE SUMMARY

I'm a frontend-focused MERN stack developer with two years of learning experience. I have a good grasp in HTML, CSS, JavaScript and React.js. React Native I specialize in creating visually appealing, browser-compatible and performance-optimized web apps.

SKILLS

Front-End
- JavaScript • Reqct Js • Redux • React Query • antd • Sass • Bootstrap • Tailwind Css • React Native

Back-End
- NodeJS • ExpressJS • MongoDB • Firebase

WORK EXPERIENCE

Febula IT | Front-End Developer   *MAY 2023- JUN 2024*
- Led the development of the Cubby project and gain plan project, focusing on pixel design and responsive.
- Created new software for client.
- Worked closely with client to collect requirements and ensure project quality
- Implemented user authentication, search functionality, and a report system for ranking answers.
- Handle the Database and created a responsive front-end using HTML, CSS, and JavaScript

PROJECTS

Chatting App   [Website]   [GitHub]

It's a real-time chatting application where users can send friend requests and chat with each other.
Technologies Used - • ReactJS • Firebase • MUI
What I Did
- Profile picture upload with Drag and Drop
- Implemented react lazy loading and optimization techniques

Outcome : Initial load time improved by almost 15 seconds. User experience enhanced for drag and drop (DnD).
